

Adobe Acrobat Pro DC

Digital transformation is a key component to today's business success. Now more than ever, organisations need to keep remote teams productive, connected and secure while minimising IT workloads and reducing costs.

That's where a subscription-based solution from Adobe Acrobat Pro DC can help.

Acrobat Pro DC is the world's most-used PDF app. It's the only complete solution for achieving end-to-end digital workflows for critical document processes.

With an Acrobat Pro DC subscription, your business can:

- Empower team collaboration across desktop, web and mobile
- Reduce IT overheads and costs moving from CapEx to OpEx
- Increase employee productivity
- Stay up-to-date with the latest PDF tools for desktop, mobile and web
- Access 24/7 technical support and latest updates on new product features
- 100GB of Adobe Document Cloud storage (instead of just 2GB with a one-off purchase).

Why upgrade to subscription-based?

An Adobe Acrobat Pro DC subscription gives you so much more than the latest desktop software.

When you subscribe to Acrobat Pro DC, you pay a monthly or annual fee based on the plan you choose. Adobe's Value Incentive Plan (VIP) buying programme provides simple transactions, flexible terms and volume discounts.

You will always have the most current release of Acrobat DC and the newest features, with no need to upgrade as long as you keep your subscription current.

The Key Benefits

Simplify purchasing and maximise savings

- Make software budgeting more predictable with an annual plan or maximise savings with a three-year commitment
- Shift your software spending from CapEx to Opex. Save more with Value Incentive Plan (VIP) Select by purchasing 10 or more licenses and locking in your discount level for all purchases during the subscription term.

Keep teams connected, productive and secure, from anywhere

- Collaborate across locations and devices by sharing PDFs, comments and tracking progress in real time, from anywhere
- Accelerate transactions by collecting legally binding e-signatures in minutes
- Send PDF files for digital review with no sign-ups or software required
- Turn paper documents into PDFs by taking a picture with the Adobe Scan app.

Integrate time-saving PDF tools with leading productivity platforms

- Convert Word, Excel and PowerPoint files to high-quality PDFs
- View, create, organise and combine PDFs in OneDrive or SharePoint
- Create, share, collaborate and approve assets and agreements in Microsoft Teams to speed up content creation and document approvals
- View, create, organise and export PDFs or send PDFs for signature inside Google Drive and Box.

Streamline software management and increase security

- Easily assign, reassign, remove and track Acrobat Pro DC licenses through the intuitive, web-based admin console
- Get ongoing access to the latest Acrobat features and security updates
- Deploy Acrobat DC in virtual environments with named user support for Citrix XenApp and XenDesktop, VMware Horizon, Microsoft App-V and Windows Terminal Server (WTS)
- Authenticate users via single sign-on (SSO) and protect intellectual property with a dedicated encryption key*
- 24/7 advanced technical support and live chat sessions*
- Mitigate PDF-based attacks with multiple defences and advanced security techniques, such as sandboxing, leak protection and code sanitation.

TD SYNEX a Adobe

TD SYNEX is Adobe's main distributor in Europe, operating in 21 countries and offering to our reseller partners an extensive knowledge of Adobe's product portfolio, including of course Adobe Acrobat Pro DC. To find out more about **Adobe Acrobat Pro DC subscriptions**, email your TD SYNEX Account Manager today: michal.nemcek@tdsynnex.com.
